### STATEMENT OF SAFETY POLICY

It is the policy of TECHNICAL WELDING INSPECTION, INC. to provide a healthy and safe place of employment for all employees; to abide by all regulations as they pertain to our industry which are set forth in Federal, State, and Local standards and statutes; and integrate good safety habits to every aspect of our company activity. The following Seven-Point Program shall also be incorporated as part of this policy.

1. Assign one person in our company to be responsible for safety. All communications and directives Will be routed from or to the Safety Coordinator, who must understand the law and its application to our business.
2. Consider safety as an integral part of each project that we bid.
3. Examine subcontracts and make certain of subcontractors' responsibility for their unsafe acts.
4. Meet with vendors and equipment dealers to inform them of requirements in purchasing or renting material and equipment that must meet the regulations.
5. Participate with other organizations, both local and national, in activities to promote accident prevention.
6. Keep current by reading information available on compliance citations, and penalties in our industry.
7. Recognize those individuals, who contribute most to a safer TECHNICAL WELDING INSPECTION INC., considering both efforts and results.
